

K-LOVE serves my community in many ways. K-LOVE provides my community with a positive and encouraging broadcast every day. K-LOVE also keeps local listeners informed on non-profit causes that are happening in our community. You will NOT find another local station that has a dedicated member on the staff that is available to take calls from distressed or suicidal people.

If K-LOVE were to be displaced by an LPFM broadcaster providing other programming, my community would be left without a positive influence on the radio. K-LOVE is a family radio station that doesn't have to deluge the listener with obscene or vulgar oral communication to keep the listener (or more importantly the advertiser) tuned in.

I believe that the service provided by K-LOVE is in the public interest because the station makes me a better person and makes me feel like I can make a difference in the world. If only 5% of the radio stations in my area had such a positive influence on its listeners, you would see a real return of moral values. Prohibiting local listeners from K-LOVE only leads us deeper into the moral morass that is destroying America. I also know that K-LOVE is having a positive influence on my area based on the number of K-LOVE bumper stickers that I have seen lately.

This world seems to be all about money and the K-LOVE listeners put their OWN money on the line every 6 months to keep K-LOVE on the air. THAT alone proves that K-LOVE must be doing something of value for my local community.
